

Publication List (1990-Present)

1-164(1956-1989)は省略

165. Iwata, N., Inazu, N. and Satoh, T.: Immunological and enzymological localization of carbonyl reductase in ovary and liver of various species. *J. Biochem.* 107: 209-212(1990).
166. Ueno, K., Saha, A.N., Kitagawa, H. and Satoh, T.: Effects of heptaminol AMP amidate(HAA) on cyclic AMP level and mitogen-induced proliferation of murine spleen cells. *Japan. J. Pharmacol.* 52: 483-488(1990).
167. Hosokawa, M., Maki, T. and Satoh, T.: Characterization of molecular species of liver microsomal carboxylesterases of several animal species and humans. *Arch. Biochem. Biophys.* 277: 219-227(1990).
168. Iwata, N., Inazu, N. and Satoh, T.: Changes in rat ovarian carbonyl reductase activity and content during the estrous cycle and its localization. *Biol. Reprod.* 42: 161-166(1990).
169. Fukushima, K., Arai, M., Suwa, T. and Satoh, T.: Enzymatic reduction of an epoxysuccinic acid derivative by rat cecal microflora. *Drug Metab. Dispos.* 18: 264-266(1990).
170. Inazu, N., Iwata, N. and Satoh, T.: Inhibitory effect of glucocorticoid and stimulatory effect of human chorionic gonadotropin on ovarian carbonyl reductase in rats. *Life Sci.* 46: 841-848(1990).
171. Saha, A.R., Ueno, K., Kitagawa, H. and Satoh, T.: A comparative study between heptaminol AMP amidate and dibutyryl cyclic AMP for their effects on in vitro spleen cell proliferation. *Res. Commun. Chem. Pathol. Pharmacol.* 67: 337-348(1990).
172. Iwata, N., Inazu, N. and Satoh, T.: Changes and localization of ovarian carbonyl reductase during pseudopregnancy and pregnancy in rats. *Biol. Reprod.* 43: 397-403(1990).
173. Fukushima, K., Arai, M., Tamai, M., Yokoo, C., Murata, M., Suwa, T. and Satoh, T.: Metabolic fate of loxistatin in rats. *Xenobiotica* 20: 1043-1051(1990).
174. Iwata, N., Inazu, N. and Satoh, T.: The purification and properties of NADPH-dependent aldose reductase from rat ovary. *Arch. Biochem. Biophys.* 282: 70-77(1990).

175. Inazu, N., Inaba, N. and Satoh, T.: Immunohistochemical localization and physiological regulation of carbonyl reductase in immature rat ovary. *J. Pharmacol.* 54: 13-21 (1990).
176. Fukushima, K., Arai, M., Kohno, Y., Suwa, T. and Satoh, T.: An epoxysuccinic acid derivative (Loxistatin)-induced hepatic injury in rats. *Toxicol. Appl. Pharmacol.* 105: 1-12 (1990).
177. Ono, M. and Satoh, T.: Pharmacological studies of lappaconitine, analgesia produced by intracerebroventricular, intracisternal and intrathecal injections. *J. Pharmacobio-Dyn.* 13: 374-377 (1990).
178. Iwata, N., Inazu, N., Takeo, S. and Satoh, T.: Carbonyl reductases from rat testis and vas deferens. Purification, properties and localization. *Eur. J. Biochem.* 193: 75-81 (1990).
179. Igarashi, T., Kohara, A. and Satoh, T.: Characterization of an acidic cytosolic luteal S-transferase isozyme belonging to class Pi in dog liver. *Biochem. Pharmacol. (Life Sci. Adv.)* 9: 149-156 (1990).
180. Igarashi, T., Tsuchiya, T. and Satoh, T.: A specific glutathione S-transferase isozyme occurring in hereditary hyperbilirubinuria rats. *J. Biochem.* 109: 3-5 (1991).
181. Ueno, K., Saha, A.R., Satoh, T. and Kitagawa, H.: Effects of heptaminol AMP amidate on T cell populations of peripheral blood lymphocytes and splenocytes in mice. *Res. Commun. Chem. Pathol. Pharmacol.* 71: 125-128 (1991).
182. Fukushima, K., Kohno, Y., Osabe, W., Suwa, T. and Satoh, T.: The disposition of loxistatin and metabolites in normal and dystrophic hamsters. *Xenobiotica* 21: 23-31 (1991).
183. Maki, T., Hosokawa, M., Satoh, T. and Sato, K.: Changes in carboxylesterase isozymes of rat liver microsomes during hepatocarcinogenesis. *Jpn. J. Cancer Res.* 82: 800-806 (1991).
184. Yuda, Y., Tanaka, J., Hirano, F., Igarashi, K. and Satoh, T.: Participation of lipid peroxidation in rat pertussis vaccine pleurisy. III. Thiobarbituric acid (TBA) reactant and lysosomal enzyme. *Chem. Pharm. Bull.* 39: 505-506 (1991).
185. Yuda, Y., Tanaka, J., Suzuki, K., Igarashi, K. and Satoh, T.: Inhibitory effects of non-steroidal anti-inflammatory drugs on superoxide generation. *Chem. Pharm. Bull.* 39: 1075-1077 (1991).

186. Mishima, M., Kobayashi, S., Hashida, R., Yuzuriha, T., Sato, T. and Satoh, T.: Enzymatic hydrolysis of indometacin farnesil, a prodrug of indomethacin, by carboxylesterase in cultured synovial cells. *Res. Commun. Chem. Pathol. Pharmacol.* 72: 183-190(1991).
187. Inaba, N., Inazu, N., Kogo, H. and Satoh, T.: Effects of antiestrogens on ovarian aldo-keto reductase in relation to ovulation in rats. *Japan. J. Pharmacol.* 56: 61-69(1991).
188. Satoh, T., Maki, T., Kobayashi, S. and Hosokawa, M.: Multiplicity and Toxicological Implications of Liver Microsomal Carboxylesterase. *Pesticides and the Future: Toxicological Studies of Risks and Benefit*(E. Hodgson, N. Motoyama eds.) pp137-148, North Carolina State University Press (1991).
189. Igarashi, T., Kohara, A., Shikata, Y., Sagami, F., Yoneda, J., Horie, T. and Satoh, T.: The unique feature of dog liver cytosolic glutathione S-transferases. An isozyme not retained on the affinity column has the highest activity towards 1,2-dichloro-4-nitrobenzene. *J. Biol. Chem.* 266: 21709-21717(1991).
190. Ono, M. and Satoh, T.: Pharmacological studies of lappaconitine: Supraspinal-spinal interaction in antinociception. *Arch. int. Pharmacodyn. Ther.* 309: 32-41(1991).
191. Ono, M. and Satoh, T.: Pharmacological studies on lappaconitine: Antinociception and inhibition of the spinal action of substance P and somatostatin. *Japan. J. Pharmacol.* 55:523-530(1991).
192. Ueno, K., Takeda, H., Satoh, T. and Fujiwara, M.: Immunosuppression in kaolin-induced hydrocephalic rats. *Neuroimmunol. Res.* 4: 35-40(1991).
193. Ueno, K., Takeda, H., Satoh, T. and Fujiwara, M. Effects of essential fatty acids on immune response in kaolin-induced hydrocephalic rats. *Neuroimmunol. Res.* 5: 46- 54 (1992).
194. Iwata, N., Inazu, N. and Satoh, T.: Consecutive treatment of disulfiram inhibits ovarian carbonyl reductase activity in rats. *Japan. J. Pharmacol.* 58: 167-173(1992).
195. Hasegawa, H., Bando, M., Hori, H., Satoh, T., Tada, T., Onoyama, Y. and Inayama, S.: Radiosensitizing, toxicological, and pharmacokinetic properties of hydroxamate analogues of nitroimidazoles as bifunctional radiosensitizers/chemical modifiers. *Int. J. Radiation Oncology Biol. Phys.* 22:

561-564(1992).

196. Igarashi, T., Tsuchiya, T., Shikata, Y., Sagami, F., Tagaya, O., Horie, T. and Satoh, T.: Developmental aspects of a unique glutathione S-transferase subunit Yx in the liver cytosol from rats with hereditary hyperbilirubinuria: Comparison with rat fetal liver transferase subunit Yfetus. *Biochem. J.* 283: 307-311(1992).
197. Inazu, N., Inaba, N., Satoh, T. and Fujii, T.: Human chorionic gonadotropin causes an estrogen-mediated induction of rat ovarian carbonyl reductase. *Life Sci.* 51: 817- 822 (1992).
198. Ono, M. and Satoh, T.: Pharmacological studies on lappaconitine: Possible interaction with endogenous noradrenergic and serotonergic pathways to induce antinociception. *Japan. J. Pharmacol.* 58: 251-257(1992).
199. Ueno, K., Miyashita, A., Endoh, K., Takezawa, T., Yamazaki, M., Mori, Y. and Satoh, T.: Formation of multicellular spheroids composed of rat hepatocytes. *Res. Commun. Chem. Pathol. Pharmacol.* 77: 107-120(1992).
200. Endoh, K., Ueno, K., Miyashita, A. and Satoh, T.: An experimental model of acute liver injury using multicellular spheroids composed of rat parenchymal and non-parenchymal liver cells. *Res. Commun. Chem. Pathol. Pharmacol.* 82: 317-329(1993).
201. Iwata, N., Inazu, N., Hara, S., Yanase, T., Kano, S., Endo, T., Kuriwa, F., Sato, Y. and Satoh, T.: Interindividual variability of carbonyl reductase levels in human livers. *Biochem. Pharmacol.* 45: 1711-1714(1993).
202. Iwata, N., Minegishi, K., Suzuki, K., Ohno, Y., Igarashi, T., Satoh, T. and Takahashi, A.: An usual profile of musk xylene-induced drug-metabolizing enzymes in rat liver. *Biochem. Pharmacol.* 45: 1659-1665(1993).
203. Hosokawa, M., Hattori, K. and Satoh, T.: Differential responses of rat hepatic microsomal carboxylesterase isozymes to glucocorticoid hormones and pregnenolone 16 α -carbonitrile. *Biochem. Pharmacol.* 45: 2317-2322(1993).
204. Ogawa, N., Mizuno, K., Fukushima, K., Suwa, T. and Satoh, T.: Metabolic fate of a new dihydropyridine calcium antagonist, CD-349, in rats and dogs. *Xenobiotica* 23: 747- 759 (1993).
205. Derbel, M., Igarashi, T. and Satoh, T.: Differential induction of glutathione S-transferase subunits by phenobarbital, 3-methylcholanthrene and ethoxyquin in rat liver and kidney. *Biochim. Biophys. Acta* 1158:175-180(1993).

206. Iwata, N., Inazu, N., Endo, T. and Satoh, T.: Gonadotropin-induced ovarian carbonyl reductase in mice and hamsters: Comparison with carbonyl reductase in rats. *Life Sci.*, 53: 1729-1733(1993).
207. Hosokawa, M. and Satoh, T.: Differences in the induction of carboxylesterase isozymes in rat liver microsomes by perfluorinated fatty acids. *Xenobiotica* 23: 1125-1133(1993).
208. Endou, K., Ueno, K., Miyashita, A. and Satoh, T.: Size-regulation and biochemical activities of the multicellular spheroid composed of rat liver cells. *Res. Commun. Chem. Pathol. Pharmacol.* 83: 317-327(1994).
209. Inazu, N. and Satoh, T.: Activation by human chorionic gonadotropin of ovarian carbonyl reductase exposed in vivo to estrogens in mature rats. *Biochem. Pharmacol.* 47: 1489-1496(1994).
210. Satoh, T., Hosokawa, M., Atsumi, R., Suzuki, R., Hakusui, H. and Nagai, E.: Metabolic activation of CPT-11, a novel antitumor agent, by carboxylesterase. *Biol. Pharm. Bull.* 17: 662-664(1994).
211. Inazu, N., Nagashima, Y., Satoh, T. and Fujii, T.: Purification and properties of six aldo-keto reductase from rat adrenal gland. *J. Biochem.* 115: 991-999(1994).
212. Ueno, K., Endou, K. and Satoh, T.: Protective effect of tetramethylpyrazine on experimental acute liver injury in vitro. *In Vitro Toxicology* 7: 247-252(1994).
213. Hosokawa, M., Hirata, K., Nakata, F., Suga, T. and Satoh, T.: Species differences in the induction of hepatic microsomal carboxylesterases caused by dietary exposure to di(2-ethylhexyl)phthalate, a peroxisome proliferator. *Drug Metab. Dispo.* 22: 889-894 (1994).
214. Yamada, T., Hosokawa, M., Satoh, T., Moroo, I., Takahashi, M., Akatsu, H. and Yamamoto, T.: Immunohistochemistry with an antibody to human liver carboxylesterase in human brain tissues. *Brain Res.* 658: 163-167(1994)
215. Hori, H., Yokoyama, H., Nagasawa, H., Murayama, C., Mori, T., Yonei, S., Satoh, T. and Inayama, S.: A convenient screening test for hypoxic cell radiosensitizers/cytotoxins. *Biol. Pharm. Bull.* 17: 1676-1678(1994).
216. Ueno, K., Miyashita, A., Takezawa, T., Mori, Y. and Satoh, T.: An alternative to hepatotoxicity testing using multicellular spheroids composed of rat liver cells. *In Vitro Toxicology* 7: 351-356(1994).
217. Yamada, T., Kawaguchi, N., Hosokawa, M. and Satoh, T.: Localization of an

- isoform of carboxylesterase in rat brain differs from that in human brain. *Brain Res.* 674: 175-179(1995).
218. Ogawa N., Hirose, T., Fukushima, K. Suwa, T. and Satoh, T.: GSH-independent denitration of the nitrate ester of a dihydropyridine derivative in rabbit hepatic cytosol. *Biochem. Pharmacol.* 49: 141-146(1995).
219. Inazu, N., Nagashima, Y. and Satoh, T.: Localization and activity of adrenal carbonyl reductase during the estrous cycle. *Biol. Pharm. Bull.* 18: 671-676(1995).
220. Ono, S., Tsutsui, M., Gonzalez, F.J., Satoh, T., Masubuchi, Y., Horie, T., Suzuki, T. and Narimatsu, S.: Oxidative metabolism of bunitrolol by complementary DNA-expressed human cytochrome P450 isoforms in human hepatoma cell line(Hep G2) using recombinant vaccinia virus. *Pharmacogenetics* 5: 97-102(1995).
221. Ono, S., Hatanaka, T., Hotta, H., Tsutsui, M., Satoh, T. and Gonzalez, F.J.: Chlorzoxazone is metabolized by human CYP1A2 as well as by human CYP2E1. *Pharmacogenetics* 5: 143-150(1995).
222. Inazu, N., Iwata, N. and Satoh, T.: Changes in adrenal carbonyl reductase activity in pregnant rats. *Res. Commun. Mol. Pathol. Pharmacol.* 88: 225-231(1995).
223. Hosokawa, M., Endo, T., Fujisawa, M., Hara, S., Iwata, N., Sato, Y. and Satoh, T.: Interindividual variation in carboxylesterase levels in human liver microsomes. *Drug Metab. Dispos.* 23: 1022-1027(1995).
224. Shigematsu, A., Motoji, N., Hatori, A. and Satoh, T.: Progressive application of autoradiography in pharmacokinetic and metabolic studies for the development of new drugs. *Regul. Toxicol. Pharmacol.* 22: 122-142(1995).
225. Satoh, T. and Hosokawa, M.: Molecular aspects of carboxylesterase isoforms in comparison with other esterases. *Toxicol. Lett.* 82: 439-445(1995).
226. Ogawa, N., Hirose, T, Tsukamoto, M., Fukushima, K., Suwa, T. and Satoh, T.: Identification and characterization of glutathione-independent denitration enzyme of organic nitrate esters in rabbit hepatic cytosol. *Biol. Pharm. Bull.* 18: 1352-1355 (1995).
227. Derbel, M., Hosokawa, M. and Satoh, T.: Differences in the induction of carboxylesterase RL4 in rat liver microsomes by various perfluorinated fatty acids, metabolically inert derivatives of fatty acids. *Biol. Pharm. Bull.* 19: 765-767(1996)
228. Ono, S., Hatanaka, T., Hotta, H., Satoh, T., Gonzalez, F.J. and Tsutsui, M.: Specificity of substrate and inhibitor probes for cytochrome P450s: Evaluation of in

- vitro metabolism using cDNA-expressed human P450s and human liver microsomes. *Xenobiotica* 26: 1155-1166(1996)
229. Inazu, N., Hayashi, M., Hiura, M. and Satoh, T.; Effects of psychotropic drugs on aldo-keto reductase activity in rat ovary and adrenal gland. *Biochem. Pharmacol.* 52: 1585-1591(1996).
230. Kusano, K., Seko, T., Tanaka, S., Shikata, Y., Ando, T., Ida, S., Hosokawa, M., Satoh, T., Yuzuriha, T. and Horie, T. Purification and characterization of monkey liver amidohydrolases and its relationship to a metabolic polymorphism of E6123, a platelet activating factor receptor antagonist. *Drug Metab. Dispos.* 24, 1186-1191(1996)
231. Yamada, J., Furihata, T., Iida, N., Watanabe, T., Hosokawa, M., Satoh, T., Someya, A., Nagaoka, I. and Suga, T.: Molecular cloning and expression of cDNAs encoding rat brain and liver cytosolic long-chain acyl-CoA hydrolases. *Biochem. Biophys. Res. Commun.* 232: 198-203(1997).
232. Satoh, T. and Hosokawa, M.: The mammalian carboxylesterases: From molecules to functions. *Annu. Rev. Pharmacol. Toxicol.* 38, 257-288(1998).
233. Takayama, H. Watanabe, A. Hosokawa, K. Chiba, K. Satoh, T. and Aimi, N.: Synthesis of a new class of camptothecin derivatives, the long-chain fatty acid esters of 10-hydroxy-camptothecin, as a potent prodrug candidate, and their *in vitro* metabolic conversion by carboxylesterases. *Bioorg. Med. Chem. Lett.* 8, 415-418 (1998).
234. Shimizu, R. Hanano, M. and Satoh, T.: Changes in the drug metabolizing activities of the liver specimens of rats, dogs, monkeys and humans after cold- and cryo-preservation. *Res. Commun. Pharmacol. Toxicol.* 3, 81-88(1998)
235. Shimizu, R., Hanano, M. and Satoh, T.: Thermodynamic studies on the generation of inorganic phosphorus in rat and human livers. *Res. Commun. Pharmacol. Toxicol.* 3, 89-96(1998)
